

YOU GOT IT (F. Treves-A.Gariazzo)

When we play together / Well we always got the
groove
It's a chain reaction / It's not a thing that we can
choose
A kind of new direction recognize that you're a fool
You better take it easy son / Just try to play it cool

Chorus:

YOU GOT IT

It's a place you have inside
Just a feelin' you can't hide

Even if you try to put your "blackness" as you can
Don't forget to ask you something you can't
understand
Feel a new sensation and let your spirit flow
You better take it easy man and something let you
know
